A Perfect Wood Replacement

Company Profile

JKD PVC Celuka Foam Boards/Sheets are using the Celuka extrusion process. The World-leading equipment and rich experience with this process and this material have enable JKD to create the PVC Celuka Foam Boards/Sheets that is perfectly matched to the requirements of the market.

JKD owes its unique products properties to the combination of a solid top coat and a cellular core, both made of the same material and manufactured in one single operation.

FOR ARCHITECTS AND DESIGNERS

A dialogue that makes sense for manufacturing as per the custom design can make the entire work of architects and designers quite visible down to ever last detail. JKD believed in exchange of ideas considering architects and designers as our growth partners. A professionally designed areas come out as a tangible asset and become visible to everyone visiting your premise. Often getting opened and closed furniture makes real sense of attraction to the visitors. Engaging in dialogue with architects and designers, we seek and find solutions for new functions in creating good designs for the final customers.

FOR FURNITURE RETAILERS

Furniture retailers are our channel partners those believe in JKD brand, products and services. We are supporting them by providing whole hearted support for - establishing demo modules, point of purchase arrangement, catalogues, raw material samples, service team, sales support etc. We really understand the strength of our local partners and we take care of retailers as a part of JKD Family.

We invite prominent retail players to become our channel partners. If you are an aggressive retail player of your city, you are requested to be a part of JKD Family.
